What is claimed is:

therethrough.

- 1. An electronic apparatus for obtaining and memorizing image data representing an image and displaying the image represented by the memorized image data, comprising:
- a memory for memorizing, in addition to the image data, an attribute about a dimension of the image represented by the image data depending on whether the obtained image data represents a two dimensional image without parallax or a three dimensional image with parallax.
 - An electronic apparatus as claimed in claim 1, further comprising:
 a communications section for connecting to the Internet and obtaining the image data
 - 3. An electronic apparatus as claimed in claim 1, further comprising: a camera for photographing the image so that the image data is obtained by the camera.
 - 4. An electronic apparatus as claimed in claim 1, further comprising: an input section for inputting audio; an output section for outputting audio; and a communications section for transmitting and receiving audio, wherein the electronic apparatus functions as a telephone.
- 5. An electronic apparatus for obtaining and memorizing image data representing an image and displaying the image represented by the memorized image data, comprising:

 a memory for memorizing, in addition to the image data, an attribute about a format of

the image data.

6. An electronic apparatus as claimed in claim 5, further comprising: an input section for inputting audio; an output section for outputting audio; and a communications section for transmitting and receiving audio, wherein the electronic apparatus functions as a telephone.
